

## USHER Industrial Cleaners

# USHER Clean

*Versatile cleaners for every need*

### Use USHER Clean For

- Floors
- Vehicles
- Pressure Washing
- Equipment & Machines
- Engine Degreasing
- Parts Washing
- Rust Inhibitors
- Dip Tanks
- Machine Shops
- Manufacturing Facilities
- Schools
- Kitchens
- Restaurants

Usher Clean industrial cleaners quickly dissolve and emulsify heavy grease, oil, ink and accumulated dirt. Products range from non-foaming to high-foaming for a range of applications. Versatile formulas can be diluted or used full-strength for light to ultra-heavy-duty demands.

### Products

#### **USHER Clean 011 (Clear)**

*All-Purpose Cleaner*

Butyl-based formula. Dissolves grease, oils, tire marks, ink and dirt buildup. Use it in automatic floor scrubbers, mop buckets and dip tanks, for spray-and-wipe cleaning and to clean machinery. Safe for soft metals.

#### **USHER Clean 7300 (Green)**

*All-Purpose Citrus Cleaner*

Non-butyl citrus formula. Removes grease, oils, coolants, metal working fluids, tire marks, inks and dirt buildup. Use it in automatic floor scrubbers and mop buckets, plus spray-and-wipe, pressure washing and steam cleaning applications. Safe for soft metals.

#### **USHER Clean 7450 (Orange)**

*Citrus Cleaner-Degreaser*

Non-butyl citrus formula. Breaks up grease, oils, tire marks, ink and animal fats. Use it in automatic floor scrubbers, mop buckets, and dip tanks, and for spray-and-wipe, pressure washing and cleaning machinery. Not for use on soft metals.

#### **USHER Clean 112 (Green)**

*Cleaner-Degreaser*

Butyl-based workhorse. Grabs grease, oils, tire marks, ink and animal fats. Use it in automatic floor scrubbers, mop buckets, dip tanks and pressure washing applications. Not for use on soft metals.

#### **USHER Clean 136 (Green)**

*Parts Washer*

Alkaline parts washer. Tackles heavy grease, oils, coolants and metal working fluids. Use it in automatic spray wash conveyor-belt or monorail systems, dip tanks and pressure washing applications. Safe for soft metals at concentrations of 2% to 4%.

#### **USHER Clean 7680 (Yellow)**

*Parts Washer*

Non-butyl parts washer. Dissolves and emulsifies heavy grease, oils, coolants and metal working fluids. Use it in automatic spray wash conveyor-belt or monorail systems, dip tanks and pressure washing applications. Recommended for quench oil cleaning and heat treating. Safe for soft metals.

### Savings & Benefits

- Use convenient refillable containers with central containment units
- Eliminate hand mixing
- Reduce product waste
- Improve employee safety
- Choose the right cleaner for every application.
